EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Williams on August 6, 2007. The applicant would like it to be made of record that the applicant's agreement to the cancellation of Claim 24 as discussed below was done so in an effort to expedite the allowance of Claims 11-19 and not done so based on the concession that the prior art of record anticipated the limitations of the claim or that it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the prior art of record in order to deem the limitations of the claim unpatentable.

The application should be amended as follows:

Please cancel Claims 1-10 and 20-24.

2. The following is an examiner's statement of reasons for allowance:
3. Claims 11-13 and 15-19 are allowed.
4. Claims 11-13 and 15-19 recite a method of improving timing margin of at least one path on a semiconductor chip coupled to a voltage supply comprising among others the step of not changing a frequency of operation of the semiconductor chip. The aforementioned limitation discussed above in combination with the other limitations of the claims is not anticipated by the prior art of record, nor would it have been obvious to one having ordinary skill in the art to modify the prior art of record to deem the limitations unpatentable.
